

Professional Billing Compliance Frequently Asked Questions

Compliance Review

1. [How does my compliance rate compare with the other physicians in my department and how does it compare overall?](#)

1. **How does my compliance rate compare with the other physicians in my department and how does it compare overall?**

Comparison to other physician's results would not be beneficial. Volumes, types of services, place of service, specialty vs. primary care, all of these variables would make a comparison useless. It is more effective to compare your current findings with your own previous reviews. The Compliance Office takes this approach when planning the review and any subsequent training.-
